#SFS Pest #MahaShivratri #SevaFacility #HealthyLiving #PestControlServices"

SFS Pest Control (Seva Facility Services Pvt Ltd) wishes you a safe, healthy, and blessed festival. We are dedicated to providing balance and protection to your environment. Polti Cimex Eradicator uses superheated dry steam technology to eliminate bed bugs in seconds — across all life stages — without chemicals or downtime.

- ✓ Certified steam system
 - ✓ Instant bed bug elimination
 - ✓ Safe for all premises — hotels, homes, hospitals & offices
- A powerful, eco-friendly solution for modern pest control needs.

#PestControl #BedBugTreatment #SteamTechnology #FacilityManagement #HospitalitySolutions #Hygiene #EcoFriendly #Disinfection #SevaFacility #PestControlService #Upgrade your hygiene standards with FLYght One Smart Fly Control Machine — engineered for performance, safety, and energy efficiency.

- ✓ Advanced UV LED trapping technology
 - ✓ 70–80% lower power consumption
 - ✓ Glass-free, production-safe design
 - ✓ Compact, space-saving installation
 - ✓ Compatible with long-lasting glueboards
 - ✓ Bio VE Sheet replacement every 6 months
- See Before & After Bio VE Sheet results — visible hygiene improvement.

#FacilityManagement #FoodSafetyStandards #IndustrialHygiene #SmartTechnology #EnergyEfficient #PestControlSolutions #WorkplaceSafety #Manufacturing #QualityControl Most termite damage doesn't happen overnight — it grows silently inside your property until repairs become expensive and disruptive.

That's why smart builders now integrate preventive termite piping systems at the construction stage.

Why it's the smarter choice:

- ✓ Long-term protection without structural damage
- ✓ WHO-approved, family & food-safe solutions
- ✓ Zero disruption during treatment
- ✓ Trusted for homes, hospitals, hotels & warehouses

Build today with protection that lasts tomorrow.

Silo Fumigation Fan with J-System Installation | NSPM 22 Compliance

This video demonstrates the installation and working of a Silo Fumigation Fan with J-System, used for effective and uniform distribution of phosphine gas during silo fumigation.

The J-System plays a critical role in ensuring proper gas circulation from top to bottom of the grain silo, helping achieve complete insect control and safe fumigation results.

What This Video Covers:

- Silo fumigation fan installation
- J-System pipe connection procedure
- Downside (bottom) J-System pipe placement
- Upside (top) J-System pipe placement
- Length of connecting pipes used in silo fumigation
- Diameter of connecting pipes for proper gas flow
- Importance of J-System in uniform phosphine gas circulation

This method is widely used for industrial grain silos, bulk commodity storage, and export-oriented fumigation operations.

About SFS Pest Control

SFS Pest Control (Seva Facility Services Pvt. Ltd.) is a government-accredited pest management and fumigation company specializing in:

Silo fumigation as per NSPM 22

Aluminium Phosphide (ALP) fumigation

Commodity & bulk grain fumigation

Industrial & warehouse pest management

Head Office: Pune, Maharashtra, India

Looking for Reliable Wooden Pallets for International Shipments?

Export-Compliant Pine Wooden Pallets Treated Without Chemicals

Seva Facility offers pine wooden pallets that undergo a Forced Hot Air Treatment (FHAT) process — a non-chemical method designed to reduce pest risks and meet key global standards.

Features of these pallets include:

- Treated using controlled heat (no chemicals involved)
- Stamped and certified for export to Europe & many other countries
- Suitable for industries requiring hygienic handling and durable support
- A practical solution for exporters, warehouses, logistics, and more
